

Factsheet

A1-A2

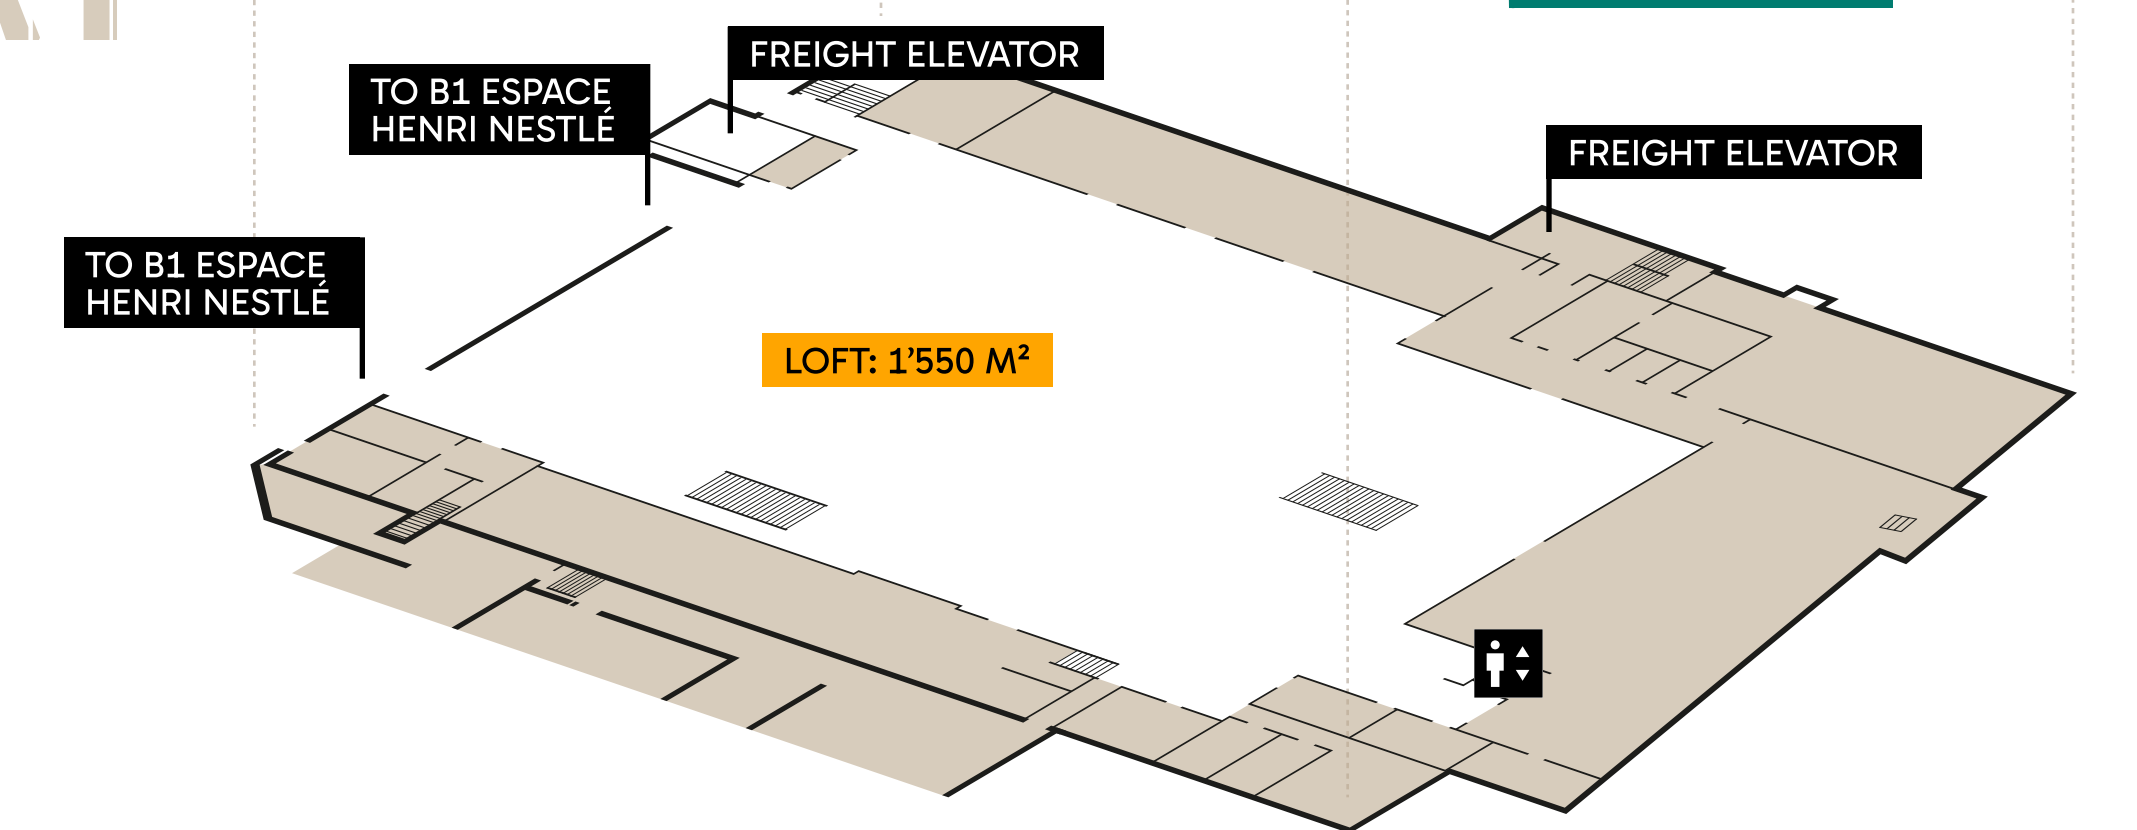

DUPLEX

A2

A1

■ Outdoor areas (terraces, balconies) ■ Gap on the lower floor ■ Zone 2M2C (offices, technical facilities, storage)

A Space with a Spectacular View

This event space was designed to inspire and connect. The DUPLEX unfolds over two levels, offering exceptional flexibility and modularity.

Its expansive floor-to-ceiling windows create a constant dialogue between the interior and the unique Montreux surroundings, inviting the lake and mountains to become an integral part of every event, enhanced by a vast 290 m² terrace.

Versatility & Cool Sophistication

Designed to meet the most diverse requirements: trade fairs and exhibitions, corporate events, networking cocktails, DJ concerts, international conferences, product launches, gala evenings, prestige events.

A3

MILES DAVIS HALL

A3

■ Outdoor areas (terraces, balconies) ■ Gap on the lower floor ■ Zone 2M2C (offices, technical facilities, storage)

A Legendary Space, a Timeless Inspiration

Just as Miles Davis improvised new sonic territories, this space offers true architectural compositions.

Directly accessible from the quay, the Hall becomes an instrument where every configuration is possible — each event a unique performance. Like Miles' jazz, this venue is a territory of freedom.

Natural light plays as a subtle accompaniment, while the panorama of the lake and the Alps forms a permanent visual chorus.

Shared Harmony

(Miles Davis Hall & Upper Miles Davis Hall)

Whether in the Miles Davis Hall or its Upper space, you benefit from a perfectly orchestrated setting:

Modular rhythm of spaces, flexible event arrangements, natural light in counterpoint, panoramic views like a timeless standard, and technical connections in perfect harmony.

TECHNICAL SPECIFICATIONS

 Level 3 Miles Davis Building

TERRACE

 **Terrace area:** 535 m²

 **Ceiling height:** Not covered

 **Capacities (cocktail):** 420

The Miles Davis foyer invites connection and inspiration.

With its own private entrance, direct terrace access, and breathtaking views over Lake Geneva, this modular space offers an intimate setting.

When combined with the Miles Davis Hall, it becomes a stage in its own right — a place where exchanges find their rhythm, ideas improvise their melody, and the spirit of Miles still lingers, inspiring.

B1

ESPACE HENRI NESTLÉ

B2

B1

■ Outdoor areas (terraces, balconies)
 ■ Gap on the lower floor
 ■ Zone 2M2C (offices, technical facilities, storage)

The Alchemy of Encounters – A Laboratory of Events

Just as Henri Nestlé transformed simple ingredients into groundbreaking innovations, the Espace Henri Nestlé turns every event into a memorable experience.

With direct access from the quay, spectacular views, and a venue entirely open to creativity and limitless staging possibilities, this space offers a truly inspiring setting.

Event Staging

The space performs on every level: modular configurations, natural daylight, and a highly effective panoramic perspective.

Perfect for:

Exhibitions with stands, gala dinners, conferences, seminars, screenings, concerts, and more.

B3

SALLES HENRI NESTLÉ

B3

■ Outdoor areas (terraces, balconies) ■ Gap on the lower floor ■ Zone 2M2C (offices, technical facilities, storage)

Like a multi-part composition, this space plays on harmonies and variations.

Its seven modular rooms allow for any configuration: from a large gathering to a series of intimate lounges, depending on the pace of your event.

The 375 m² foyer, in turn, becomes a space for improvisation: breakout sessions, networking or pop-up exhibitions – it adapts to your rhythm.

And when it's time to take a breather, the adjoining terrace, bathed in light and opening out onto the lake and the Alps, offers an inspiring respite, a pause in chiaroscuro, suspended between nature and creativity.

QUINCY JONES HALL

B4

■ Outdoor areas (terraces, balconies) ■ Gap on the lower floor ■ Zone 2M2C (offices, technical facilities, storage)

Just as Quincy Jones produced legendary albums that transcend genres, the Quincy Jones Hall masterfully blends the art of event production.

A venue where every detail is perfectly orchestrated, transforming each event into an iconic moment.

The immense adjoining terrace becomes your panoramic stage, offering a breathtaking backdrop over the lake and the Alps — a setting worthy of a legendary album cover.

The Quincy Jones Hall plays every register: flexible staging, natural daylight, and panoramic views create the perfect environment for concerts, conferences, plenary sessions, gala dinners, and more.

B5-B6-B8

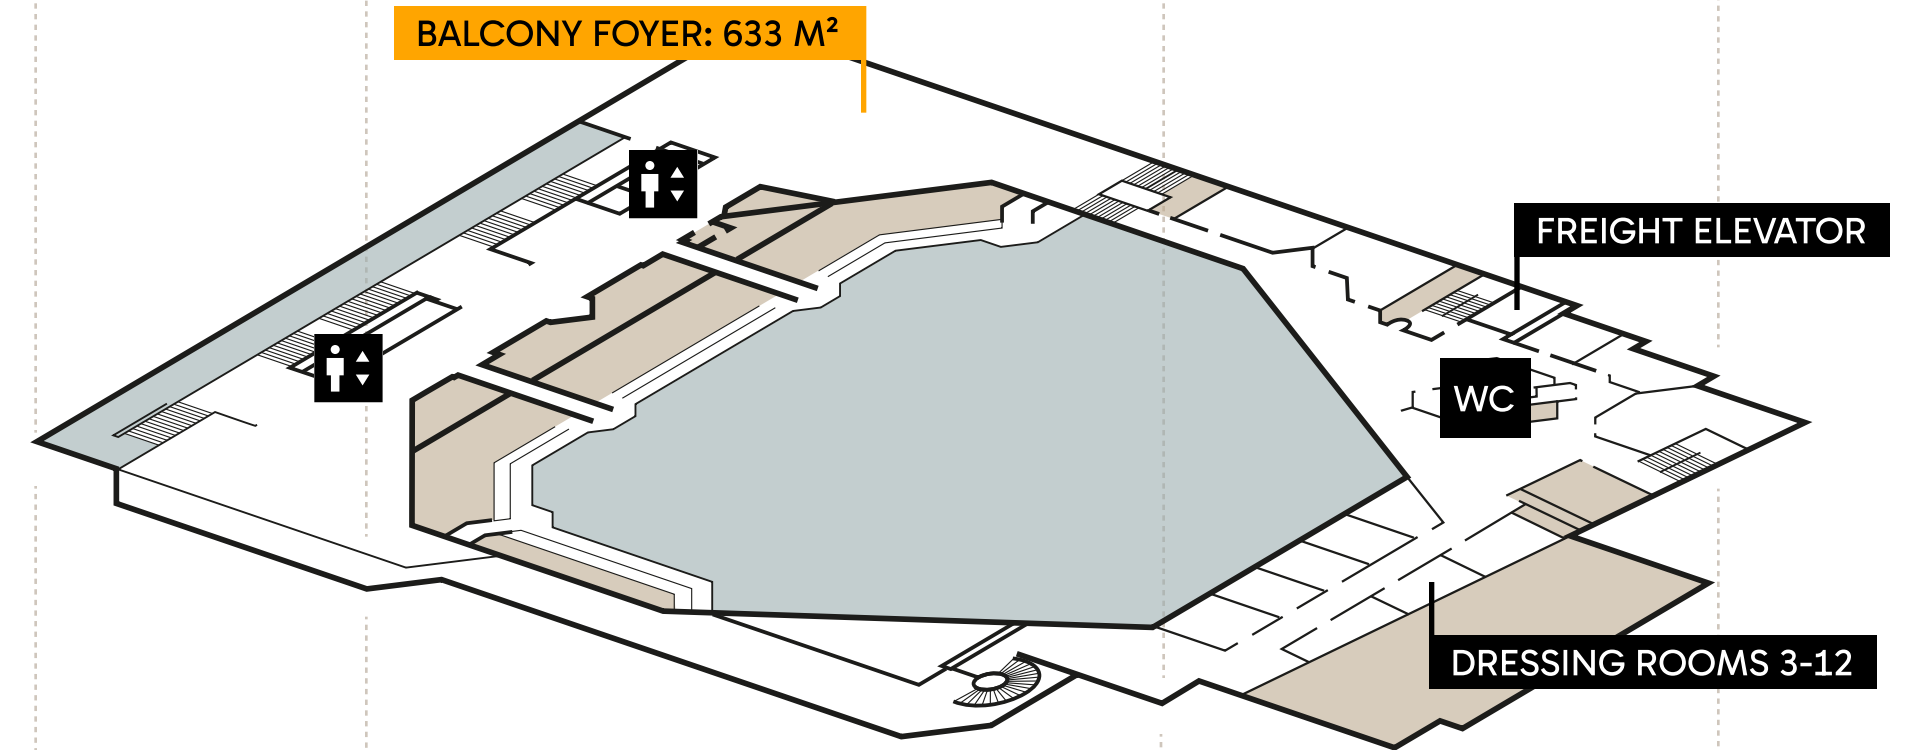

STRAVINSKI AUDITORIUM

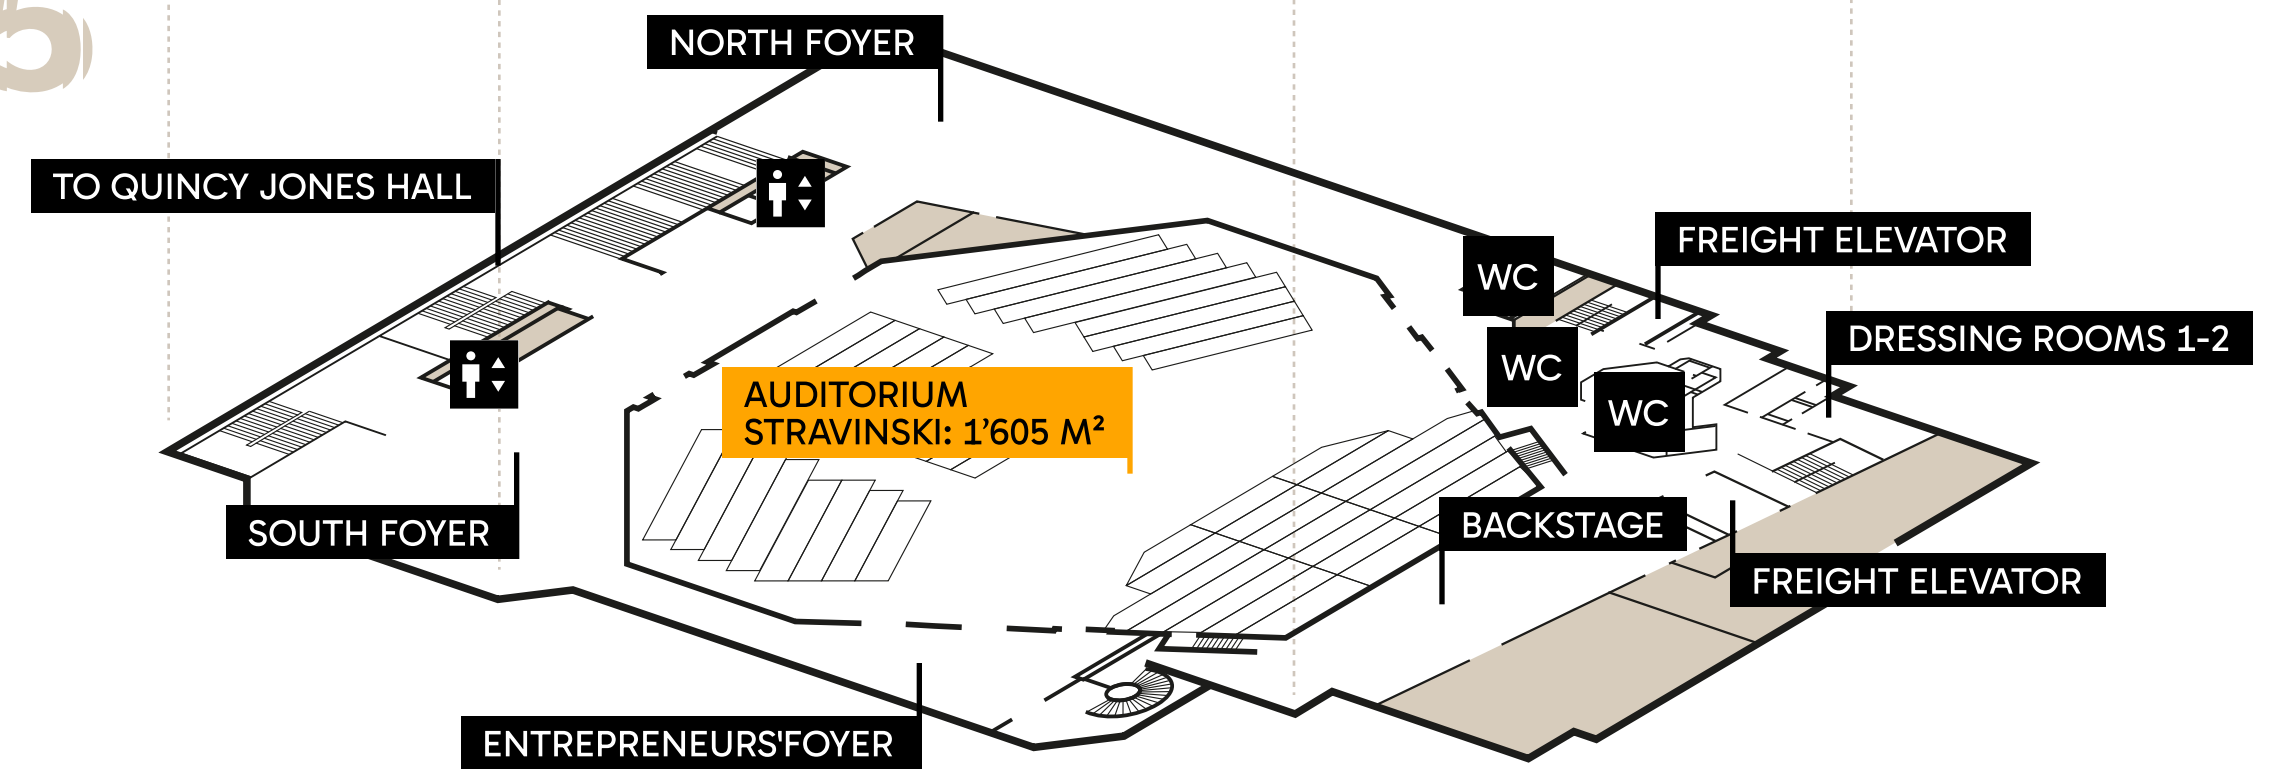

B:8

B:6

B:5

■ Outdoor areas (terraces, balconies) ■ Gap on the lower floor ■ Zone 2M2C (offices, technical facilities, storage)

The Stravinski Auditorium is the beating heart of 2M2C, paying tribute to Igor Stravinski (1882–1971), one of the major figures of 20th-century music, who composed The Rite of Spring on the Riviera — revolutionising the codes of music and dance.

The design of the Auditorium reflects Stravinski's innovative spirit: a space where tradition and modernity meet in an architecture that evokes movement and harmony.

Its remarkable beauty is expressed through the elegance of noble materials, notably precious woods that line the hall and create an atmosphere that is both warm and prestigious.

Designed for comfort and excellence, the Auditorium offers exceptional seating quality and unique modularity thanks to hydraulic platforms that allow configurations to be adapted according to needs: symphonic concerts, gala dinners, conferences, or hybrid events.

This emblematic space of 2M2C perpetuates the memory of an extraordinary artist while affirming Montreux's identity as a crossroads of innovation and internationally renowned artistic excellence.
